

International Conference

Economic Stakeholders at the Crossroads of Law

Thursday 16 April 2020

8.30 a.m. - 1.30 p.m.

Conseil supérieur du Notariat - 60, boulevard de la Tour Maubourg, 75007 Paris

Notarial organisations are present in many countries involved in the Chinese "The New Silk Roads" project, Belt and Road Initiative - BRI. The BRI project, launched in 2013 arouses enthusiasm in some, questions for others. In an international context, there are many legal and economic challenges, and notaries, as the public officials responsible for authenticating agreements, bring solutions to make transactions secure on a daily basis.

To meet these challenges, French notaries have proposed to the Chinese, German and Russian notarial organisations that they co-organise an international conference in Paris on 16 April 2020 entitled "Economic Stakeholders at the Crossroads of Law," open to all international stakeholders interested in this Initiative.

Its purpose is to explore the wealth of tasks carried out by every notarial organisation to prevent disputes. This concept of dispute prevention is in the DNA of European and Chinese legal systems. This conference will also be an opportunity to present the international network of notaries of civil law, guaranteeing this multilateral and complementary approach whose main aim is to serve legal security. Continental law represents here a vehicle for structured and harmonious relationships in the countries involved in the BRI project.

This conference will conclude with a joint declaration from all the co-organising notarial organisations recalling that the values of continental law are closely linked to legal security so that they can be taken into account by economic stakeholders.

In attendance will be European and international decision-makers from the political, economic and legal world, legal professionals and business leaders. The working languages will be French, Chinese, German, Russian and English.

As your country is involved in this project, your presence is essential for the success of this conference and the objectives it will pursue. We count on you taking advantage of this event to reaffirm notarial values. Please find, as an attachment, a presentation note in several languages. We thank you in advance for informing your colleagues, public authorities in your country and France, your professional networks and your diaspora in France.

Registration will be on-line and we will send you the URL address as soon as possible.

In anticipation, we will be pleased to welcome you and meet you for this conference to promote our fine profession.
